

Falcon IP/Complete Continues to Meet IPTV Demands of Telcos Nationwide

Falcon assisting IPTV Operators impacted by SES Americom's IP-Prime with smooth transition to the Falcon IP/Complete platform

Malden, Missouri, December 19, 2008 - Falcon's commitment to the Nation's telecommunications industry remains steadfast to deliver powerful IPTV and advanced video solutions to their customers. Falcon's alignment with world leading video partners remains unchanged and solely focused on offering a complete end-to-end MPEG-4 IPTV system.

SES Americom's announcement to end IP-Prime does not affect Falcon's ability to provide quality, effective IPTV solutions and services to Tier 2 and Tier 3 Telco Service Providers. "Our goal, as it has been for over 41 years, is to satisfy our Telco customer needs by providing leading technology solutions and services that meet their evolving requirements," stated Donald R. Cook, President/CEO, Falcon IP/Complete.

Falcon is dedicated to providing our customers with tested, proven IPTV technology solutions customized to meet their needs and the professional services required to engineer, install, integrate, support, and maintain their IPTV solution. Falcon IP/Complete has successfully deployed video solutions across the nation, and we will continue doing so with our IPTV Transport and Content Partners.

Falcon IP/Complete is the leading IPTV solutions and service provider because of the value the company provides to Telco Operators:

- ✓ Total integration, maintenance, and 24/7, 365 days a year support
- ✓ Tested, proven IPTV systems
- ✓ Rapid installation and deployment for quick time-to-market and faster ROI
- ✓ Cost effective, scalable MPEG-4 IPTV solution
- ✓ Standards-based architecture
- ✓ Top products from world leaders in multichannel video systems and operations
- ✓ Successful deployments with great customer satisfaction
- ✓ Backed by more than 41 years of experience with hundreds of Telco Operators
- ✓ Single point of contact for **ANY** issue

Falcon's team welcomes all questions regarding its complete IPTV solutions and services, and appreciates its continued customer support.
